My contact details are highlighted in my signature below and include phone, email and postal address.

I strongly object to the the Land And Valuation Amendment Bill 2023 as proposed. Contrary to what was claimed in Parliament by the Minister who claims they have no material impact on rates and property taxes these proposed changes will have a significant impact on rates and taxes and substantially impact a significant number of property owners.

It is disgraceful how this government is spending money with limited managemnet and recourse and they quickly turn to taxings hard working property owners as soon as they realise they have misbudgeted the taxes they have already taken from us.

This can not be passed

Andrew Boyd
