WILD RIVERS; WATER SUPPLY

Mr LEE (Indooroopilly—ALP) (10.03 pm): I rise in the House today to put on record my sincere gratitude for and my pride in the great result for Queensland's environment with the announcement that was made two weeks ago that six wilderness rivers will be declared as Queensland wild rivers and will receive an appropriate level of environmental protection.

In addition, I am determined to work with Queensland's Premier Peter Beattie to help secure Queensland's water future. We need to fight for our water future on all fronts and I am determined to leave no stone unturned to make sure that my community gets the water it deserves.
