Record of Proceedings, 29 October 2015

**FINANCE AND ADMINISTRATION COMMITTEE**

**North Stradbroke Island Protection and Sustainability Legislation, Suspension of Consideration**

 **Mr KNUTH** (Dalrymple—KAP) (10.12 am): I fully believe that the North Stradbroke Island bill, which I tabled on 27 October, brings forth a compromise to resolve ongoing time frames on the phasing out of sandmining on North Stradbroke Island. I also acknowledge that the CLA and the parliament, including me, have agreed to accept private members' bills and government bills to commence through the committee system and to be debated as cognate bills at the same time so as to eliminate double up, as the Leader of the House has indicated. So at this present moment, I support this motion.
