**PARLIAMENTARY CRIME AND CORRUPTION COMMITTEE**

**Report, Motion to Take Note**

 **Mrs McMAHON** (Macalister—ALP) (3.02 pm), continuing: In returning to my contribution, I did note that it was a voluminous report that the PCCC has put forward. There are six recommendations and 14 findings. Having read the transcript of some of the contributions so far, I would ask that members make sure they read the recommendations and findings before making a contribution, because the ignorance of some has now been recorded forever in *Hansard*. I speak specifically of contributions stating that the PCCC's report did not make any finding of innocence in relation to the actions of the Logan City councillors and it does not absolve them.

I briefly want to talk about the work that Tony Fitzgerald QC will be doing as a result of the recommendations. I welcome his report and I think it is going to be the transparent way forward. We need the best and that is why Mr Fitzgerald is here.
