## NOTICES OF MOTION

### Emissions Targets

**Mr KATTER** (Traeger—KAP) (10.15 am): I give notice that I will move—

That this House:

- (a) acknowledges that Queensland contributes less than 0.4 per cent of global emissions;
- (b) acknowledges that recently legislated emissions targets are costing everyday Queenslanders more during a cost-of-living crisis; and
- (c) takes all necessary steps to reverse the 75 per cent emissions targets agreed to by both sides of the House.
