

Health Legislation (Waiting List Integrity) Amendment Bill 2015

Explanatory Notes

Short title

The short title of the Bill is the Waiting List Integrity Bill 2015

Policy objectives and the reasons for them

The objectives of the Bill are to:

1. Establish the Health Ombudsman as the independent reviewer of the clinical waiting times for Queensland patients in the public health system
2. To ensure the Health Ombudsman manages auditing of wait time matters in a transparent, accountable and public way. This is the legislative outcome of the previous Queensland Governments announcement of its intention to create a new independent body following the announcement of the wait time guarantee.
3. To provide certainty in clinical waiting times for Queensland Public Hospital patients and allay concerns as a result of being on a waiting list longer than necessary.

Achievement of policy objectives

To achieve its objectives, the Bill will establish the Office of the Health Ombudsman as the independent body to review, and publish waiting time data and set out its functions and powers. The Bill will achieve its objective of establishing and monitoring the integrity of the patient clinical waiting time guarantee by:

- requiring the Health and Hospital Service to provide waiting time data to the Health Ombudsman
- requiring the Health Ombudsman to analyse and publish the data in a timely manner

Alternative ways of achieving policy objectives

No other mechanisms were canvassed, as the Office of the Health Ombudsman is an existing statutory body, and utilising the Ombudsman reduces the cost, and time of establishing a new body has resulted in this approach.

Estimated cost for government implementation

Cost estimates have not been included in this Bill until the health Ombudsman has been consulted on resources that may be required to execute the activities of this Bill.

Consistency with fundamental legislative principles

The Bill is generally consistent with fundamental legislative principles.

Consultation

It is anticipated that consultation will occur during committee consideration process.

Consistency with legislation of other jurisdictions

The Bill is specific to the State of Queensland, and is not uniform with or complementary to legislation of the Commonwealth or another state
