- 882 Mr Malone, from 53 petitioners, requesting the House to support the completion of the study to identify the key environmental, social, cultural and heritage issues associated with the construction of a dam on Finch Hatton Creek at AMTD 3.2 km as stakeholders at the top of the Pioneer Valley believe that Finch Hatton Creek Dam may represent the only viable water resource development option capable of providing additional, affordable water to satisfy agricultural and urban demand at the top end of the Pioneer Valley.
- 883 Mr Nelson, from 648 petitioners, requesting the House to investigate the Cairns City Council and their management of water resources, including an investigation into the impact studies that were carried out prior to imposing these drastic cuts, so they have a fair water allocation and a reasonable excess charge that suits their climate shifts, from wet to dry.
- 884 Mr Nuttall, from 218 petitioners, requesting the House to consider in conjunction with the extension of Linkfield Road, that Telegraph Road be upgraded to main road status to accommodate this ever increasing, all hours of the night traffic; however, we also submit that a heavy traffic route from Bracken Ridge Road via Hoyland Street to Strathpine Road would severely decrease the quality of life of all residents in this area and should not be considered as a means of solving this problem.
