

**QUESTION ON NOTICE**  
**No. 536**  
**Asked on 19 May 2004**

**MS JARRATT** asked the Minister for Primary Industries and Fisheries (Mr Palaszczuk)—

**QUESTION:**

Will he provide details of the outcomes of the Aligning for Success project, and in particular, the benefits that will flow for Queensland's primary producers, including primary producers in the electorate of Whitsunday?

**ANSWER:**

The Aligning for Success project was designed to renew the Department of Primary Industries and Fisheries' commitment to promoting profitable primary industries.

This is an historic restructure of the Department, which will strengthen our expertise in leading-edge science, economic and industry development and policy leadership.

The Department's strong regional focus will be further strengthened, particularly through the new Delivery division.

A very notable new appointment to the Department is well-respected agribusiness and rural research and development expert Professor Beth Woods OAM to drive the enhanced Research and Development Strategy section of the Department.
