

**Question on Notice  
No. 589  
Asked on 21 April 2006**

MS MOLLOY asked the Minister for Emergency Services (MR PURCELL) -

QUESTION:

Has he been able to secure a parcel of land for an ambulance station given the State Labor Government's ongoing commitment to provide high quality infrastructure and services to the people of Coolum, Peregrine Springs, Peregrine and the wider community?

ANSWER:

I thank the member for the question and congratulate her for her ongoing support for emergency services within her electorate.

I am pleased to advise that suitable land for an emergency services facility has been identified in South Coolum Road, Coolum.

The site comprises sufficient land for the construction of a co-located fire station at a later date.

The department has reached in-principle agreement with the owners of the land on the purchase price.

An identification and contour survey is currently being conducted. Once completed a Contract for purchase of the land will be presented to the owners for signature.
