

**Question on Notice**  
**No. 612**  
**Asked on 21 April 2006**

Mr LINGARD asked the Premier (Mr Beattie)—

**QUESTION:**

With reference to any reserve, contingency or emergency funding expended at the discretion of the Premier or Chief Executive Officer for each of the last two financial years and for the year to date (reported separately)—

- (1) Will he provide details of all items of expenditure from such fund/s including (a) the reason for expenditure, (b) total amount of expenditure on each occasion, (c) the date that each item of expenditure was approved and (d) the person/s responsible for approval of the expenditure?
- (2) What is the uncommitted balance of these funds at present?

**ANSWER:**

- (1) The contingency fund provides the capacity and flexibility for the Premier of the day to respond to emergent needs and events.

As Head of Government, I am approached in that capacity to facilitate a variety of initiatives of economic, social, regional and environmental importance to Queensland.

The nature and type of projects undertaken is highly influenced by the public agenda. Hence, flexibility, together with the ability to rapidly respond and act on new issues as they emerge is imperative.

My ability to respond effectively to emerging issues and opportunities is dependent on immediate access to appropriate levels of resources. Adequate financial resources are therefore essential if these demands are to be met on a timely basis, particularly those which emanate from unforeseen events or those which require expeditious decisions and actions.

The Director-General's Reserve is also available to provide for whole-of-Government contributions to charitable organisations and disaster appeals and to provide assistance to local authorities, deserving causes, community groups and to whole-of-Government initiatives.

The attached table (Attachment A) lists expenditure from the contingency fund in the 2003-04 and 2004-05 financial years and for the period ending 28 April 2006.

The Premier of the day having access to a contingency fund is not new. By way of comparison, former Premier Borbidge had a funding allocation in his department's contingency reserve totalling \$14.984 million in the 1997-98 financial year. Total commitments and expenditure at 30 June 1998 as detailed in Attachment B, totalled \$13.623 million.

- (2) The uncommitted balance of the fund as at 28 April 2006 is \$4.507 million.
