ANSWER:

I refer you to Question on Notice No. 14 dated 22 June 2007 for the Estimates Committee in answer to this question.

In addition \$40,000 has been expended for an ACNielsen poll to ascertain the views of Queenslanders on local government reform. The representative sample for the questionnaire was produced by generating a random list of numbers from the Electronic White Pages. Respondents were selected systematically from among household members aged 18 years and older.
