

Question on Notice

No. 199

Asked on 21 February 2007

Mr HOPPER asked the Deputy Premier, Treasurer and Minister for Infrastructure (Ms BLIGH) –

QUESTION:

With reference to the building of the Water Grid and, in particular, the introduction of recycled sewage water to the potable water supply—

- (1) What facilities will be built for the recycling of the sewage water for potable use?
- (2) What processes will each of these plants be capable of in the treatment process of recycled sewage?
- (3) What quantity of water will each plant have the capacity to process per day?

ANSWER:

I refer the Honourable Member to the website of the Western Corridor Recycled Water Project at www.westerncorridor.com.au, where all the information he has sought is publicly available.
