No. 973
Asked on 8 June 2007**

Mr Roberts asked the Minister for Education and Training and Minister for the Arts (Mr Welford) —

QUESTION:

Will he provide details of State Government funding for capital works projects in Catholic schools in the Nudgee Electorate from the year 2000 by (a) year, (b) school, (c) nature/scope of project, (d) State Government funding, and (e) source and amount of other funding (if available)?

ANSWER:

The Beattie Government is committed to ensuring all schools in Queensland have high quality, relevant facilities that serve the needs of students.

The State Government Capital Assistance Scheme helps subsidise capital works projects at Catholic and independent schools. The grants scheme enables school communities to get much-needed projects off the ground. These projects help the schools to continue to provide a standard of education for their students.

The information in the following table (next page) details the funding recommendations provided to the Minister by the Queensland Catholic Capital Assistance Authority and approved by the Minister each year.
