

Question on Notice

No. 1557

Asked on Wednesday, 29 October 2008

MRS MENKENS asked the Minister for Communities, Minister for Disability Services, Minister for Aboriginal and Torres Strait Islander Partnerships, Minister for Multicultural Affairs, Seniors and Youth (**MS NELSON-CARR**)—

Will she provide a list of all organisations, including the department's service provision arm, that have received funding from Disability Services Queensland for service provision in 2006-07, 2007-08 and 2008-09 to date (specifying the amount funded, the organisation name, the regional areas covered, target clients and any after hours service provision)?

ANSWER:

Disability Services Queensland (DSQ) helps people with a disability and their families to access the support and services they need as they move through the different stages of their life.

Disability Services Queensland provides grants to over 300 non-government service providers to deliver a range of services for people with a disability across Queensland. Funding is allocated to non-government service providers to provide support for people with a disability, mental illness, the aged and their families/carers in accordance with the principles and objectives of the relevant Acts.

Details of the funding for all DSQ-funded services in Queensland for 2006-07 and 2007-08 and 2008-09 to date are listed in the following spreadsheets.

In terms of the services provided directly by Disability Services Queensland, this information is available in general terms in the Annual Reports for the Department for 2006-07 and 2007-08 and the estimates for expenditure for 2008-09 are included in the Service Delivery Statement for the Department. This information is recorded according to the Outputs of the Department and cover services provided across the state to people with disabilities.

Services provided by Disability Services Queensland (Accommodation Support and Respite Services) and funded organisations, include provision of 24 hour support for clients as appropriate. DSQ and its funded non-government service providers work with people with a disability, their families and carers when developing and implementing support plans to ensure an appropriate level of support is provided within available resources – this includes care which would be provided after hours.

Total figure includes recurrent and non-recurrent funding
