

**Question on Notice**

**No. 1871**

**Asked on 27 November 2008**

**MR LINGARD ASKED THE TREASURER (MR FRASER)—**

What is the total cost (on a whole-of-government basis) of machinery of government changes to all departments (including within and between departments), including but not limited to staff changes, additional training, printing, branding, ICT, stationery, downtime due to physical shifts (collocations) and any other associated cost?

**ANSWER:**

Machinery of Government changes are undertaken on a Budget neutral basis. As elements of the administrative arrangements are moved between departments, the associated resources are also moved.
