

Question on Notice

No. 1261

Asked on 16 September 2009

Dr Flegg asked the Minister for Education and Training (Mr Wilson) —

QUESTION:

How many MUP plans have been issued to Queensland teachers in the last 12 month period for which figures are available and for the preceding two years (listed separately)?

ANSWER:

I thank the Member for his question.

Education Queensland has total teaching workforce of around 47,000 FTE.

Every organisation has a process for managing poor performance among workers. It's critical that this process gives workers the opportunity, time and support to improve their performance and increase their skills.

Education Queensland works closely with staff members to provide this support.

The number of MUP plans issued are as follows:

2009 – 28

2008 – 21

2007 – 18
