

Question on Notice

No. 1430

Asked on 7 October 2009

Dr Flegg asked the Minister for Education and Training (Mr Wilson) —

QUESTION:

With reference to overseas students enrolled at the Southbank Institute of Technology—

(1) What was the total revenue gained from full fee paying international students for 2008-09 and 2009-10 to date (listed separately)?

(2) What was the total expenditure on services for exclusive use by overseas students (listed separately) for the same period?

ANSWER:

I thank the Member for his question.

Southbank Institute of Technology is an independent statutory body.

I have been advised by SBIT that the total revenue gained from full fee paying international students for 2008–09 was \$13,876,000.

SBIT advises the total revenue gained from full fee paying international students 2009–10 to date is \$4,127,000.

SBIT further advises that it is not possible to isolate and particularise the expenses associated with a particular cohort of students.
