MR PITT ASKED THE MINISTER FOR SCIENCE, INFORMATION TECHNOLOGY, INNOVATION AND THE ARTS (MR WALKER)—

Will the Minister provide a detailed list of all grants to external organisations issued through Innovation and Science Development Services within the department for 2012-13 (listed separately by recipient, date of grant, duration, purpose and amount) and annual totals allocated across the forward estimates?

ANSWER:

The Innovation and Science Development Division of the department is responsible for the administration and management of all innovation and science related grants awarded under a range of programs, including collaborative research projects, science fellowships and a proof of concept program.

In 2012-13, \$42.299 million (GST exclusive) was paid as grants towards 193 separate projects.

As requested, I attach a list of those payments detailing program name, recipient, project title, agreement start and end date, and amount paid (excluding GST).

Grant payments projected for the forward estimates period are:

- \$47.875 million (GST exclusive) for 2013-14, of which \$15.959 million (GST exclusive) has already been paid
- \$21.050 million (GST exclusive) for 2014-15
- \$24.198 million (GST exclusive) for 2015-16

All grant payments are tied to executed Financial Assistance Agreements with individual payments linked to milestone deliverables that must be satisfied before payments are released.
