Question on Notice

No. 137

Asked on 6 March 2014

Mrs Scott asked the Minister for Education, Training and Employment (Mr Langbroek) –

QUESTION:

Will the Minister inform the House how many schools have completely cleared their maintenance jobs in the last 12 months and provide a list of those schools?

ANSWER:

I thank the Member for her question.

Maintenance condition assessments are completed annually in schools, resulting in the identification of maintenance tasks.

The Advancing our Schools Maintenance (AoSM) initiative has provided an additional \$200 million to address school maintenance over the 2012–13 and 2013–14 financial years. The objective of this unprecedented investment is to provide schools with the resources to address pre-existing maintenance liabilities identified in the 2011–12 maintenance assessment reports (MAR).

AoSM funding has allowed 923 schools to be fully funded to the estimated value of their 2011–12 maintenance liability over the two year period from 2012–13 to 2013–14.

As at February 2014, maintenance reports indicate that some 525 schools have already cleared all of the maintenance tasks identified on their 2011–12 MAR. A list of these schools is attached.

The Newman Government has empowered schools to make decisions about prioritising their maintenance tasks under the annual maintenance program and scheduling work for delivery at the most suitable time to suit their needs.

A significant amount of work is scheduled to be delivered over the Easter school holidays which will increase further the number of schools fully clearing their 2011–12 maintenance liability.

To date, program results indicate that schools have achieved savings averaging 20%, when compared to original estimated pricing in school maintenance assessment reports.

The results achieved with the AoSM initiative will be further bolstered with the \$100 million Fixing our Schools Fund in 2014–2015 and will help ensure that Queensland remains a great state with great schools.
