No. 265

Asked on Wednesday, 1 March 2017

MRS J STUCKEY asked Deputy Premier, Minister for Transport and Minister for Infrastructure and Planning (HON J TRAD) —

QUESTION:

Will the Deputy Premier advise the patronage of Route 777 bus from Coolangatta Airport to Broadbeach and Broadbeach to Coolangatta Airport for the past 12 months, including a breakdown by average of loading and unloading at each timing point along the route (reported by month)?

ANSWER:

I thank the Member for Currumbin for the question.

I can advise that patronage figures on route 777 have remained stable over the past twelve months (March 2016 to February 2017). On average, there are approximately 50,000 passenger trips each month which is comparable to passenger trips on this route in 2015.

Route 777 Gold Coast Airport - Broadbeach Total Passenger Trips by Month	
Fiscal Month	Passenger Trips
March 2016	52,236
April 2016	49,268
May 2016	46,168
June 2016	43,665
July 2016	53,275
August 2016	50,544
September 2016	48,177
October 2016	48,269
November 2016	48,344
December 2016	47,480
January 2017	50,831
February 2017	47,512
Total	585,769

Below is a table showing the average boarding's and alighting's at each timing point by month. Note that there are two timing point numbers per location. One is representative of northbound travel, the other, southbound travel.
