

QUESTION ON NOTICE

No. 1112

asked on Wednesday, 5 September 2018

MR A POWELL ASKED THE MINISTER FOR NATURAL RESOURCES, MINES AND ENERGY (HON DR A LYNHAM)—

QUESTION:

Will the Minister provide an update on the execution and delivery of the Queensland bulk water opportunities statement released in July 2017 and the progress of the promised annual review in 2018?

ANSWER:

The Queensland Bulk Water Opportunities Statement is intended to be released regularly to publicly provide updated information on a range of bulk water supply matters, including investigations into new infrastructure and progress with initiatives identified in the statement.

The Department of Natural Resources, Mines and Energy is currently preparing the 2018 edition. This will incorporate analysis of water usage data received from the water providers in September/October 2018.
