

## QUESTION ON NOTICE

No. 1154

asked on Thursday, 6 September 2018

---

**MR E SORENSEN** ASKED THE MINISTER FOR STATE DEVELOPMENT, MANUFACTURING, INFRASTRUCTURE AND PLANNING (HON C DICK)—

QUESTION:

With reference to the Minister's announcement that the Market-Led Proposal program will be sharpened—

Will the Minister detail the amendments that will be made to the framework, including the date of implementation?

ANSWER:

Market-led proposals (MLPs) provide a pathway for the private sector to directly negotiate with the Queensland Government to deliver services or infrastructure that meet a government priority, strengthen the state's economy and drive employment growth.

The market response to MLPs in Queensland has been similar to other Australian jurisdictions. Ten proposals have progressed to detailed proposal stage, two of which are in the delivery stage.

I have asked my department to improve the focus on projects that could increase private sector investment and deliver priority outcomes for Queensland. Improvements to the MLP process may include measuring proposals against the government's high-level objectives, including *Our Future State* priorities and the *State Infrastructure Plan*.

The department will continue to consult with key stakeholders on ways to reach early agreement on viable proposals.
