No. 865

Asked on Friday, 15 June 2018

MR J MADDEN ASKED MINISTER FOR TRANSPORT AND MAIN ROADS (HON M BAILEY)

QUESTION:

Will the Minister detail (a) the design features of the proposed upgrade of the Mt Crosby Road-Warrego Highway Interchange at North Tivoli, (b) estimated cost of these roadworks and (c) options to fund these roadworks?

ANSWER:

I thank the Member for Ipswich West for the question.

The proposed Mount Crosby Road and Warrego Highway Interchange upgrade option includes roundabout upgrades on either side of the Mount Crosby Road overpass.

The proposed upgrade includes duplicating the circulating lanes on the southern roundabout, simplifying movements on the northern roundabout, and providing active transport facilities.

The proposed active transport infrastructure includes a separated pedestrian and cyclist bridge over the Warrego Highway, to the west of the Mount Crosby Road Bridge, connecting the cycle paths.

The cost of this preferred option which includes the pedestrian and cyclist bridge is estimated at \$17.5 million.
