

Question on Notice

No. 1575

Asked on 16 October 2019

MR S BENNETT asked the Minister for Child Safety, Youth and Women and Minister for the Prevention of Domestic and Family Violence (HON D FARMER)—

QUESTION

With reference to IT projects—

Will the Minister advise (a) the number of Youth Justice Department IT projects that are not being reported on the IT dashboard (listed by project), (b) the total value of these projects (listed by project) and (c) the reason that each project is not listed on the IT dashboard?

ANSWER

The Digital Projects Dashboard is a high-level public communication tool providing information on how projects are tracking against time and estimated cost, as well as access to procurement information, including tender opportunities.

The Queensland Government Chief Information Office provides guidance material to assist agencies and their internal governance committees to decide which projects are reported on the dashboard. Generally, projects are not required to be reported on the dashboard if they are below an approved expenditure threshold or if they are in the initiation stage.

In relation to the Department of Youth Justice, I am advised that it has no IT projects that are not reported on the dashboard.
