

Question on Notice

No. 346

Asked on 27 March 2019

MR M BOOTHMAN ASKED MINISTER FOR EDUCATION AND MINISTER FOR INDUSTRIAL RELATIONS (HON G GRACE)

QUESTION:

With reference to Outside School Hours Care—

Will the Minister advise the current maximum capacity and waiting list for schools (reported separately) in the department's south east region (listed separately by school)?

ANSWER:

Outside School Hours Care (OSHC) services are operated by either for profit or not-for-profit providers across the State, in accordance with national legislation. State schools do not operate OSHC services and the Department of Education does not collect waiting list information from OSHC providers.

The Regulatory Authority must use the National Law and Regulations when determining the maximum service capacity for OSHC services. The legislated space requirements for these services are based on state and territory governments' endorsed National Standards for OSHC. The maximum service capacity of OSHC services in the south east region is provided in Attachment 1.

In response to increasing demand for OSHC services, I established an OSHC Working Group to address waitlist issues; which includes: members from the Department of Education; the non-government sector; the peak body (Queensland Children's Activity Network); the Queensland Council of Parents and Citizens' Association and non-state equivalents; and the Queensland Association of State School Principals.

The Working Group has progressed a number of strategies and actions to combat waitlist issues, including:

- increasing OSHC places by over 1800 since the commencement of the working group;
- commissioning research into legislative space requirements for OSHC;
- enhancing state school procurement processes to ensure quality service provision and to meet growth in demand for OSHC;
- rolling out a communication strategy to increase transparency; and
- ensuring school halls, often used for OSHC, are considered in Stage 1 design for new state schools.

The department is also actively working with school communities and providers to implement local solutions, including exploring alternate sites and new facilities, and supporting parents to use nearby OSHC services.

Maximum Service Capacity for OSHC Services in the South East Region
