

QUESTION ON NOTICE

No. 545

asked on Thursday, 4 April 2019

MR M CRANDON ASKED THE MINISTER FOR NATURAL RESOURCES, MINES AND ENERGY (HON DR A LYNHAM)—

QUESTION:

With reference to Australian Standard AS/NZS3000:2018 Section 5.6 and compliance checks following construction of wet areas on concrete slabs in both domestic and commercial environments, as well as in swimming pools/spa zones—

Will the Minister explain (a) what compliance checks are carried out to ensure compliant equipotential bonding has been performed to make the area electrically safe, (b) the forms that builders/pool builders/electricians must produce to prove compliance and (c) who oversees the overall process of these compliance checks?

ANSWER:

As this matter needs to be addressed by the Industrial Relations Office in the Department of Education, I refer the member to my colleague, the Honourable Grace Grace MP, Minister for Education and Minister for Industrial Relations.
