

## Question on Notice

No. 107

Asked on 25 February 2021

**MS R BATES** ASKED THE MINISTER FOR HEALTH AND AMBULANCE SERVICES (HON Y D'ATH) –

### QUESTION

Will the Minister advise (in table format) (a) how many payroll support staff are attached to Health Support Queensland, (b) how does this number benchmark against other jurisdictions and (c) the number of Health payroll staff over the past decade?

### ANSWER

I am advised the following information:

|     |                                                                                                                                                                                                                                                  |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (a) | 619.60 Full Time Equivalents (FTE) who perform both payroll and rostering functions.                                                                                                                                                             |
| (b) | I am advised that no current benchmarking has been undertaken with other organisations. A 2015 benchmarking was undertaken however a full comparison could not occur, as organisations benchmarked did not have centralised rostering processes. |
| (c) | Ranges from 991.57 FTE in 2012 to 619.60 FTE current.                                                                                                                                                                                            |

I take this opportunity to thank all of our health staff right across Queensland.
