

Question on Notice
No. 155
Asked on 9 March 2021

DR M ROBINSON ASKED MINISTER FOR EDUCATION, MINISTER FOR INDUSTRIAL RELATIONS AND MINISTER FOR RACING (HON G GRACE)

QUESTION:

With reference to the Cooler Cleaner Schools Program—

Will the Minister advise the progress to date and completion timeframe for the installation of air conditioning at each State primary and high school within the Oodgeroo Electorate?

ANSWER:

Reaching completion at the end of June 2022, the \$477 million *Cooler Cleaner Schools Program* (CCSP) will provide air conditioning to Queensland state school classrooms, libraries and staff rooms in some 650 state schools, making an additional 10,000 classrooms cooler and more comfortable.

Under the CCSP, the following six schools in the Oodgeroo Electorate were assessed as having at least one classroom, library or staff room that was not air conditioned and are on target to be completed by June 2022, as previously announced.

School
Cleveland District State High School
Cleveland State School
Dunwich State School
Ormiston State School
Wellington Point State High School
Wellington Point State School
