ANSWER:

I thank the Member for Chatsworth for the question.

The table below outlines the infringement notices issued by type and financial year.

Number of Camera Detected Offence Program (CDOP) and Tolling infringement notices			
Offence Type	2018–19	2019–20	2020–21 (up to 28 Feb 2021)
CDOP offences	958,741	805,338	620,727
Tolling offences	94,875	50,872	54,313

The breakdown of Camera Detected Offence Program (CDOP) and tolling infringement notices, managed by the Department of Transport and Main Roads (TMR), by financial year is outlined in the table below.

¹ This figure includes direct court-elections and matters where the fines have been referred to the State Penalties Enforcement Registry, however the defendant has completed an application to cancel enforcement order and the infringement notices are then referred to TMR.

² This figure includes infringement notices that have been re-issued at the defendant's request so that payment can be made.

It is important to note that TMR prosecute registration and Compulsory Third Party insurance offences only. Queensland Police Service prosecute CDOP offences relating to speeding and failure to stop at a red light.
