Asked on 24 February 2021

MR N DAMETTO ASKED MINISTER FOR EDUCATION, MINISTER FOR INDUSTRIAL RELATIONS AND MINISTER FOR RACING (HON G GRACE)

QUESTION:

With reference to the many children who are home-schooled across the state—

Will the Minister advise if there is an opportunity for children registered with the Queensland Home Education Unit to be provided with an .edu email address to ensure they have equitable access to educational resources that children who attend mainstream educational facilities have?

ANSWER

The Department of Education is in discussions with Microsoft, investigating the possibility of providing a student email address to home-schooled students.

If a feasible solution is found, the Home Education Unit will communicate this to families.
