Asked on Wednesday, 12 October 2022

MR S ANDREW ASKED MINISTER FOR ENERGY, RENEWABLES AND HYDROGEN AND MINISTER FOR PUBLIC WORKS AND PROCUREMENT (HON M DE BRENNI)

Will the Minister (a) provide a list of all existing or planned wind and solar projects for the Mirani Electorate and (b) advise the name of each project's owner together with details of the project's size, including the number of turbines/panels it contains and the number of hectares of land it occupies?

ANSWER

I am advised that the only project my department is aware of in the Mirani electorate is the Clarke Creek Wind farm. The project owner is Squadron Energy.

According to Squadron Energy's website (<https://www.squadronenergy.com/clarke-creek-wind-farm/>), Stage 1 of the project is currently under construction and will consist of 100 wind turbines with a generation capacity of 450MW. The project is scheduled for completion in 2024.

My department is not aware of how many hectares of land the project is set to occupy. This will be a matter for the project owner and relevant regulatory authorities and stakeholders.
