

Question on Notice

No. 1398

Asked on 29 November 2022

MR M BOOTHMAN ASKED MINISTER FOR EDUCATION, MINISTER FOR INDUSTRIAL RELATIONS AND MINISTER FOR RACING (HON G GRACE)

QUESTION:

Will the Minister advise, for each State School across the Gold Coast and Logan City regions since 2015 (reported separately by year in table format), the (a) ICSEA numbers, (b) day eight student enrolment numbers and (c) investing for success allocation?

ANSWER:

The table at **Attachment 1** provides for each centre in the Gold Coast and Logan local government areas that has received Investing for Success (I4S, previously known as Great Results Guarantee) funding since 2015:

- local government area in which the centre is located;
- Index of Community Socio-Educational Advantage (ICSEA) values;
- amount of Investing for Success funding provided to the centre each year; and
- Number of enrolments at the centre that was used when determining I4S funding and collected on the eight day of school year for most centres (called 'Day 8' enrolments).

The following points are offered to assist in interpreting these data:

- The I4S funding appropriation is provided to centres for use in supporting students in achieving improved outcomes and is in addition to the resources they receive to deliver instruction and conduct general operations.
- Determining I4S funding for each centre involves considering the number of students enrolled, as well as student characteristics. Students attracting additional funding for centres were First Nations students, refugee students, students with disability, students with a language background other than English who are not achieving academically, and students from low socio-economic backgrounds as measured by the ABS measure Index of Relative Socio-economic Disadvantage (IRSD). ICSEA is not used in the calculation of I4S funding.
- Given the range of characteristics used to determine I4S funding for each centre, it is possible for schools with similar enrolments, or similar in one characteristic, to receive substantially different I4S funding. In addition, a commitment in place until 2022 that no school was to receive less funding than in 2015 also complicates funding comparisons, even in 2023.
- Day 8 enrolments have been used to calculate the I4S funding for each school since 2016. In 2015, the calculation of I4S funding, known as Great Results Guarantee, were from the February enrolment collection and therefore may be different to Day 8 enrolments from that year.
- ICSEA is a measure created by the Australian Curriculum, Assessment and Reporting Authority (ACARA). ACARA is scheduled to publish 2022 ICSEA values in February 2023.
- Four Outdoor and Environmental Education Centres are included in this dataset. These centres do not have their own student enrolments, and therefore do not have an ICSEA value, but have been included as they receive an I4S allocation.

- Coomera State Special School and Everleigh State School opened in 2022 and have not yet received an ICSEA value.
- Schools that are categorised as special schools on the *My School* website, or do not have students who sit NAPLAN, do not have ICSEA values reported for 2014 to 2017.
- ICSEA is not published if the number of complete student records available for the ICSEA calculation is fewer than five.

Investing for Success funding, Enrolments and Index of Community Socio-Educational Advantage (ICSEA) — Schools within Gold Coast and Logan City
