

Question on Notice

No. 227

Asked on 17 March 2022

MR S MINNIKIN ASKED MINISTER FOR TRANSPORT AND MAIN ROADS (HON M BAILEY)—

QUESTION:

Will the Minister provide details of all projects funded through the School Transport Infrastructure Program including (a) school name and address, (b) description of works, (c) project cost, (d) breakdown of funding source (Queensland Government and Local Governments) and (e) actual or forecast completion date?

ANSWER:

I thank the Member for Chatsworth for the question.

The Palaszczuk Government's \$20 million School Transport Infrastructure Program (STIP) has been fully approved and allocated. Through the STIP, 94 projects across the state have been funded to improve road safety outcomes at Queensland schools, with over half of these projects located in regional Queensland.

I am pleased to advise that 74 of the approved projects have already been delivered. These projects are improving safety outcomes for thousands of students, their teachers, and families. The list of schools and projects available are listed in the table below.

The STIP was designed to complement other existing Queensland Government school-related road safety initiatives, such as the Flashing School Zone Signs Program, School Crossing Supervisors Scheme and Community Road Safety Grants.

School	School address	Project description	STIP contribution (\$)	School contribution (\$)	Road Authority contribution (\$)	Total value (\$)	Completion date	Forecast delivery date
Glenvale State School (SS)	Glenvale Road and McDougall Street, GLENVALE	Off-street car park and pick up and set down zone	1,060,000			1,060,000	29/05/2020
