

Question on Notice

No. 89

Asked on 23 February 2023

MR A PERRETT asked the Minister for Agricultural Industry Development and Fisheries and Minister for Rural Communities (HON M FURNER)—

QUESTION:

Will the Minister list the number of departmental employees as of January 2023 (reported separately by Australian and New Zealand Standard Classification of Occupations code) and for each (a) the occupation code description, (b) whether it is a frontline, frontline support, or corporate service role and (c) if the data for this role was provided to the Public Service Commission?

ANSWER:

The Public Service Commission (PSC) is responsible for collecting and publishing the Minimum Obligatory Human Resource Information (MOHRI) on behalf of the Queensland Government.

The Department of Agriculture and Fisheries (DAF) validates this information prior to it being provided to the PSC on a quarterly basis. The last quarter reported was current as at 31 December 2022 and was forwarded to PSC in January 2023.

DAF adheres to the PSC procedure in supplying MOHRI. This data collection process requires human resource officers in DAF to manually code on appointment, every FTE position within their agency with an Australian and New Zealand Standard Classification of Occupations code that best matches the duties of that position. As part of this manual coding process the human resource officers will also nominate whether the role undertakes frontline/frontline support or corporate service duties.

Prior to publishing, the data sets submitted by DAF are further validated by the PSC and if necessary, DAF will work with the PSC to clarify specific roles.
