

Question on Notice

No. 912

Asked on 22 August 2023

MR J KRAUSE ASKED MINISTER FOR TRANSPORT AND MAIN ROADS AND MINISTER FOR DIGITAL SERVICES (HON M BAILEY)—

QUESTION:

Will the Minister provide comparative traffic volume data (number of vehicles and type if available) for vehicles travelling through Canungra on Beaudesert-Nerang Road, based on traffic counts undertaken by the department where possible, from 2012 to 2023?

ANSWER:

I thank the Member for Scenic Rim for the question.

The latest available traffic volume estimate for vehicles travelling through Canungra on Beaudesert-Nerang Road is 8232 vehicles per day (average annual daily traffic) in 2022. In 2012, 5412 vehicles per day were estimated to be travelling through Canungra.

In 2022, about 12.6 per cent of all vehicles were heavy vehicles. Since 2012, the proportion of heavy vehicles has fluctuated between eight per cent and 13 per cent of all traffic.

Traffic figures for 2023 will be released in 2024.
