

Question on Notice
No. 106
Asked on 15 February 2024

Mr D Crisafulli asked Premier (Hon. S Miles) —

QUESTION:

Will the Premier advise the total costs incurred to date for the proposed demolition and rebuild of the Gabba?

ANSWER:

I am advised that as at 31 January 2024, the total cost incurred for the proposed demolition and rebuild of the Gabba was \$6.4 million excluding GST.

These costs are attributed to the development of the Project Validation Report (PVR), which included analysis of four separate options, to provide assurance regarding the scope, costs, risks and delivery planning associated with the project.

The work undertaken as part of the PVR also has future value by identifying and scoping works required for maintenance and depreciation, women's participation and disability access.
