

Question on Notice

No. 194

Asked on 6 March 2024

MR N DAMETTO ASKED MINISTER FOR HEALTH, MENTAL HEALTH AND AMBULANCE SERVICES AND MINISTER FOR WOMEN (HON S FENTIMAN)—

QUESTION

With reference to the Minister committing on 15 November 2023 to deliver a CT scanner to the Ingham Hospital—

Will the Minister provide an expected timeframe for the commencement of works and operational start date?

ANSWER

The Townsville Hospital and Health Service (THHS) is currently working through key milestone dates and are aiming for a late 2025 delivery. In order to determine appropriate staffing requirements, the THHS is undertaking an assessment on scanning numbers in order to determine if an uplift in additional full time equivalent (FTE) is required, however this service will be operated by THHS staff.
