MR S KNUTH ASKED MINISTER FOR FIRE AND DISASTER RECOVERY AND MINISTER FOR CORRECTIVE SERVICES (HON N BOYD)

With reference to reports I have received from members of the Rural Fire Brigade about the lack of available useful maps with fire trails and the difficulties and increased risks this causes to members and volunteers in performing their duties—

Will the Minister (a) confirm if maps are currently supplied through Kedron GIS and the fire trails are on Department of Resources or QPWS land and there is no data sharing between these departments, and (b) if (a) is correct, investigate and find a solution to ensure mapping information can be shared across these departments so rural fire brigade members can have access to up to date fire trail information?
