

## Question on Notice

No. 757

Asked on 12 June 2024

**DR C ROWAN** ASKED MINISTER FOR EDUCATION AND MINISTER FOR YOUTH JUSTICE (HON D FARMER)

QUESTION:

With reference to the wellbeing professionals being employed through the Student Wellbeing Package—

Will the Minister advise (reported separately for 2022-23 and 2023-24 to date) (a) a list of every school with wellbeing professionals employed (reported separately by region) and (b) the number of health professionals employed at each school (reported separately by professions/specialisation, e.g. psychologist, social worker etc.)?

ANSWER

The Queensland Government has delivered the \$106.7 million Student Wellbeing Package (Package) to employ additional wellbeing professionals over three years to provide direct support for student wellbeing and mental health.

Many of the wellbeing professionals employed through the Package provide a service to a cluster of schools in their region. The number of professionals employed does not equate to the number of schools accessing a service, as one wellbeing professional may provide a service to multiple schools. Further, wellbeing professionals may be asked to change caseloads which changes the schools that wellbeing professionals support over time.

From 1 July 2024, all 1,264 Queensland state schools have access to a wellbeing professional through a school based service or a telepractice service.

Over 615 additional wellbeing professionals have been employed across the State since the commencement of the Student Wellbeing Package. These wellbeing professionals add to the support provided to students in state schools through existing support staff, including over 800 guidance officers.

Employee commencement numbers by school location and by year are listed below.

### **2022**

In 2022, 301 schools commenced accessing the service of a wellbeing professional through the Student Wellbeing Package. As at 31 December 2022, 210 employees were providing a wellbeing service to 468 Queensland state schools.
