MOHRI has been calculated from Paid FTE since 2019. A full-time employee can appear as a fraction of an FTE for a number of reasons, for example, where employees commence during the period, take leave at half pay or as unpaid leave.

Core teacher allocations are based upon student enrolments collected on the eighth day of the school year. A decline in enrolments may result in a subsequent decrease in Teacher FTE in alignment with the Department's approved school staffing methodologies.
