

## **Question on Notice**

**No. 101**

**Asked on 20 February 2025**

**MS L LINARD** ASKED MINISTER FOR HEALTH AND AMBULANCE SERVICES (HON T NICHOLLS)—

### **QUESTION**

Will the Minister guarantee that the increase in services provided at Satellite Health Centres will be above the inclusion of MRI and/or CT machines?

### **ANSWER**

The Crisafulli Government continues to see an increase in services provided at Satellite Health Centres. I am advised that in the October to December 2024 quarter, Satellite Health Centres delivered more than 20,000 outpatient occasions of service and treated more than 45,000 presentations through their Minor Injury and Illness Clinics.

I am advised that this represents a significant increase in outpatient services and Minor Injury and Illness Clinics presentations throughout 2024 (13.4 per cent and 3.4 per cent respectively). As demand for health services continues to grow, this increase in services provided at Satellite Health Centres will continue.
