

Question on Notice

No. 1216

Asked on 16 October 2025

HON S FENTIMAN ASKED MINISTER FOR HEALTH AND AMBULANCE SERVICES
(**HON T NICHOLLS**)—

QUESTION

Will the Minister advise any temporary Clinical Service Capability Framework service level changes for facilities that provide maternity services between 1 November 2024 to the most recent reportable date (reported separately by facility)?

ANSWER

There are numerous modules covered by the Clinical Services Capability Framework (CSCF). These modules relate to various clinical services and the necessary requirements to deliver them. Examples of modules include emergency, intensive care, maternity, cardiac, surgical, rehabilitation, and many more. Therefore, a facility that provides maternity services has several other CSCF service levels, according to which services are being provided. It is unclear whether the Member is asking for information about maternity service CSCF level changes, or all clinical service CSCF level changes at facilities that happen to provide maternity services. I invite the Member to clarify the question.
