

Question on Notice
No. 1218
Asked on 16 October 2025

Ms J Bush asked Premier and Minister for Veterans (Hon. D Crisafulli)—

QUESTION:

Will the Premier confirm that neither the Premier, nor staff members of the Premier's office, use private emails, such as GMAIL, for work communications, including with members of the media?

ANSWER:

Any government document should be stored on the appropriate State Government system.

If the Opposition is aware of any instances where this has not occurred and is withholding notification, I would be deeply concerned. If this is the case, I urge the Member to provide the relevant details.

Good record keeping is a responsibility we all share.
