

Question on Notice

No. 127

Asked on 12 March 2025

DR B O'SHEA ASKED MINISTER FOR HEALTH AND AMBULANCE SERVICES (HON T NICHOLLS)—

QUESTION

Will the Minister advise the number of elective surgeries cancelled by either patient or Queensland Health, at Caboolture Hospital from October 2024 to February 2025 (in a table format, reported separately by month, specialty and category)?

ANSWER

I am advised that cancellations can occur for a multitude of reasons, including: the case being brought forward; patient no longer requires treatment; patient treated elsewhere; a priority emergency or elective case; staffing shortages; availability of beds; and more.

Cancellations can occur as part of the routine changes to scheduling sometimes occurring well in advance of the day of surgery. Therefore, day of surgery cancellations is the most meaningful measure to reflect elective surgery performance.

I am advised that the most recently available data is for the period of January 2025.

Patient-initiated and Hospital-initiated day of surgery cancellations for the Caboolture Hospital from October 2024 to January 2025 are reported as per below.

To avoid identifying individuals, data is aggregated and counts of less than five are not reported.

Table 1: Day of Surgery cancellations by Month, Specialty and Category
Day of Surgery Cancellations Oct 11, Day of Surgery Cancellations Nov 13, Day of Surgery Cancellations Dec 11, Day of Surgery Cancellations Jan 16. Day of Surgery cancellations by General surgery 40; Day of Surgery cancellations by Gynaecology 11. Day of Surgery Cancellations for October 2024 – January 2025 by Category 1 (admission within 30 days), 11; Category 2 (admission within 90 days), 39; Category 3 (admission within 365 days), <5.
