Notes:

1. This data is preliminary and may be subject to change.
2. Data only relates to victims of *sexual offences* for the period of 1 December 2022 to 30 November 2025.
3. *DV-related* reported victims refers to offences where the DV indicator is 'yes'.
4. *Percentage DV related* refers to the percentage of DV related reported victims out of the total reported victims.
5. Figures do not represent a unique person count as a person may be the victim of more than one offence in the period.
6. QPS do not attribute a personal victim to property offences, only a location. The victim is the location of the offence. It does not matter if the address is private or commercial or the number of occupants – the address is only counted as one victim. For example, if a car is stolen, the victim is the location from where it was stolen.
