

Question on Notice

No. 945

Asked on Wednesday, 27 August 2025

MR T SMITH ASKED THE MINISTER FOR HOUSING AND PUBLIC WORKS AND MINISTER FOR YOUTH (HON S O'CONNOR)—

QUESTION:

Will the Minister advise (a) the current total estimated cost of the Bundaberg East Levee project and the amount of funding allocated to date, (reported separately by funding source (Queensland Government, Australian Government programs, and any other identified sources) and (b) the expected completion date for the department's assessment of the project's funding requirements?

ANSWER:

Any potential procurement process for the Bundaberg East Levee project could be impacted by providing the current cost estimate, so this is unable to be detailed.

Currently, the total approved budget for the Bundaberg East Levee is \$174,700,000 (excluding GST). Funding sources comprise of \$57,350,000 from the Queensland Government, \$57,350,000 from the Australian Government via the Emergency Response Fund Recovery and Resilience Program and up to \$60,000,000 from efficiencies within the Disaster Recovery Funding Arrangements.
