1219

MS S BOLTON ASKED DEPUTY PREMIER, MINISTER FOR STATE DEVELOPMENT, INFRASTRUCTURE AND PLANNING AND MINISTER FOR INDUSTRIAL RELATIONS (HON J BLEIJIE)

With reference to advice from local councils that there is no existing pathway in the State planning framework for long-term residential occupation of a tiny home on wheels (THOW) on private land, and the government's agreement with the Queensland Productivity Commission's recommendation 23 for an independent review of the Planning and Building Acts—

Will the Deputy Premier advise (a) when this review will commence, (b) whether its terms of reference will explicitly include the planning framework required for long-term residential occupation of THOW on private land and (c) what opportunity there will be for public and stakeholder submissions?
