No. 135

Asked on 3 March 2026

**HON MICK DE BRENNI** ASKED MINISTER FOR HEALTH AND AMBULANCE SERVICES (HON T NICHOLLS)—

### QUESTION

Will the Minister provide between 1 January 2025 (inclusive) to the latest reportable month, the total number of Tier 3 Bed Capacity escalations (in table format, reported separately by calendar month for Redlands Hospital, including the escalation period (in hours), where the y-axis is calendar month and the x-axis is Tier 3 Bed Capacity escalation and escalation period, where the numerical values are reported in the table and not a reference number to a value that sits outside the table)?

### ANSWER

Tier 3 bed capacity escalation data represents the period of time a hospital reported they did not have the available resources to meet demand.

It is noted that Redlands Hospital is under sustained pressure as a result of a decade of underinvestment in the hospital infrastructure required for this growing region. That is why the Crisafulli Government is investing in an expanded Transit Lounge at Redlands Hospital, boosting capacity by 50%, to help improve patient flow and improve the patient experience as they discharge from hospital.
