MR B HEAD ASKED THE MINISTER FOR EDUCATION AND THE ARTS (HON J LANGBROEK)—

QUESTION:

With reference to the Minister's media statement 'Classrooms crumble under Labor' and release of the Comprehensive Review of Infrastructure Renewal on 7 August 2025—

Will the Minister provide (in table format) (a) what the total cost of renewal backlog was at the completion of the state-wide Asset Lifecycle Condition Assessments (as at 2023) for schools within the Callide electorate, (b) what this cost was for each school and (c) what the overall rating (i.e. fair, poor, very poor etc) was for each school?

ANSWER:

I am advised:

(a) Total cost of renewal backlog for the Callide Electorate is \$4,424,635. Further details are in the table below.

(b) and (c) The estimated renewal backlog for each site has been determined through a structured methodology used for the Comprehensive Review of Infrastructure Renewal.

Not every site where an ALCA was conducted had a renewal backlog identified, as:

- work packages with an estimated cost of less than \$20,000 were excluded from the renewal backlog calculation. It was assumed that these works would be funded from maintenance budgets.
