Asked on 14 May 2026

HON M RYAN ASKED MINISTER FOR HEALTH AND AMBULANCE SERVICES
(**HON T NICHOLLS**)—

QUESTION

With reference to the Caboolture Hospital Paediatric Specialist Outpatient Department project—

Will the Minister advise (a) expected budget for both capital and annual operational components, (b) whether the tender for MNHHS128876 has been completed and the results of that tender (including but not limited to the successful tenderer, costs of the tender, and value of the contract awarded as a result of the tender), (c) where the project will be located on the hospital precinct, (d) expected construction timelines and expected operational commencement and (g) expected FTE required to operationalise the service once construction is completed?

ANSWER

The Crisafulli Government is investing in new facilities for paediatric specialist outpatient services at the Caboolture Hospital, after a decade of underinvestment by the former government.

I am advised that a tender has been awarded and that details, including successful tenderer and contract value, will be published on www.data.qld.gov.au within 60 days of the contract award date.

I am advised that works are scheduled to commence in mid-2026 and are expected to be completed in 2027. The new paediatric facility is located near the existing Specialist Outpatient Department.

I am further advised that operating costs will be met by Metro North HHS, with the exact amount to be determined based on the service volume and mix.
